WHEN SPECIALISTS TRAVEL, PATIENTS HEAL

The Spine Foundation conducted a spine camp at Government Medical College and Hospital, Krishnagiri, Tamil Nadu on 27 June 2026. The one-day initiative brought together a dedicated team of spine specialists and local healthcare professionals to deliver advanced surgical care to patients across the region.

**EVERY CAMP, A STEP
CLOSER TO CARE**

KRISHNAGIRI: THE STORY IN NUMBERS

5 PROCEDURES PERFORMED

- 1 Cervical Laminectomy + Fixation
- 1 Lumbar Decompression + Fixation
- 3 TLIF

In Focus

THE TEAM OF TSF

EXCELLENCE IN EVERY INCISION

The successful completion of five procedures in a single day reflects the precision and coordination of the combined TSF and local surgical teams. The camp addressed a range of complex conditions, including cervical and lumbar pathology requiring fixation and decompression. All patients remained comfortable and stable throughout, demonstrating the Foundation's capacity to deliver tertiary-level surgical care with consistent, positive outcomes. All patients showed the same neuro status as pre-op, with no adverse events reported.

BRIDGING THE SPINE CARE GAP

The TSF Camp, Tamil Nadu

The Spine Foundation camp at Government Medical College and Hospital, Krishnagiri brought specialist spine care to patients in Tamil Nadu who would otherwise have had limited access to advanced surgical intervention. By establishing a collaborative model with the local host team from the Department of Orthopaedics, TSF delivered high-quality care in a familiar, accessible setting – removing a significant barrier for patients across the region.
