THE RANCHI EDITION

## N TWO CASES READ THE SAME

An intradural cyst. A scoliosis deformity.  
Two cases that shaped the Ranchi edition.

14-16 AUGUST 2026

KANKE GENERAL HOSPITAL, RANCHI JHARKHAND

## CHAPTER ONE

# Two patients. Two very *different* cases.

The team reached Ranchi with two cases on the list, each presenting a different clinical challenge.

One involved an *intradural cyst affecting the spinal cord*.

The other, a *dorsolumbar scoliosis deformity requiring correction*.

## *Two diagnoses. Two surgical plans.*

## CHAPTER TWO · ASSESSMENT

# The scan is only part of the story.

BEDSIDE — PRE-OPERATIVE NEUROLOGICAL EXAMINATION

What the imaging showed, together with what the clinical examination revealed, helped guide the plan ahead.

*Before surgery, the patients were examined and their neurological findings reviewed alongside their scans.*

What the imaging showed, together with what the clinical examination revealed, helped guide the plan ahead.

## 01 CLINICAL EXAMINATION

*Neurological findings documented at the bedside.*

## 02 IMAGING REVIEW
