

SPINE TIMES

FIELD EDITION

AUGUST 2026

DHARAMPUR

**THIS WEEKEND,
SPECIALIST CARE CAME CLOSER.**

*Inside The Spine Foundation's
latest camp.*

7-9 August 2026

Shrimad Rajchandra Hospital,
Dharampur, Gujarat

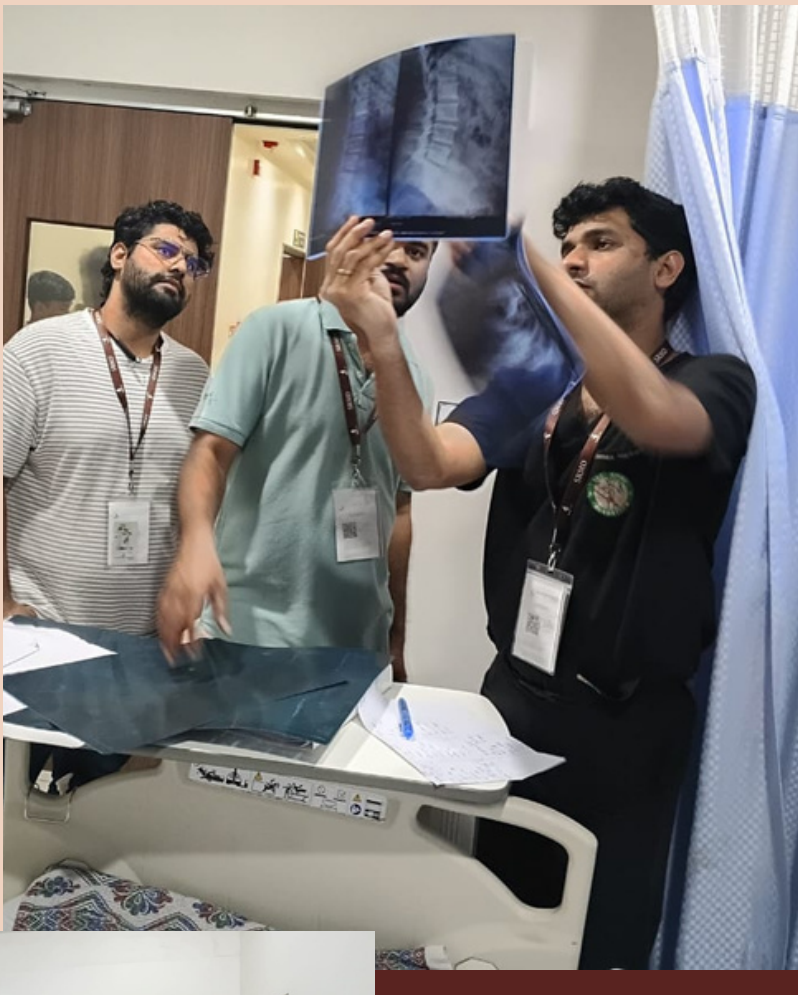

FIRST, THE CASE. THEN, THE PLAN.

Before the operating theatre came questions that mattered.

- 01 What is the patient experiencing?
- 02 What do the scans tell us?
- 03 What is the right approach?

Patients were examined, scans reviewed and cases discussed before the surgical plans were finalised.

This is where the work began.

THE SCANS

THE DISCUSSION

THE CONVERSATION

SRCH, DHARAMPUR

ONE SURGICAL DAY

05 PROCEDURES

02
TLIF
Transforaminal Lumbar
Interbody Fusion

02
**Lumbar
Decompressions**

01
**Lumbar
Microdiscectomy**

Five procedures, completed in one surgical day at SRCH, Dharampur.

FIVE DIFFERENT STORIES

THE SAME NUMBER
DOESN'T TELL THE SAME STORY.

Five patients came to the camp.

Each had a different clinical picture, a different history and a different reason for needing surgery.

The number was five. The stories behind it were entirely their own.

THE NEXT STEP

RECOVERY IN MOTION

FIVE PATIENTS, ON THEIR FEET

05

PATIENTS STABLE —
PHYSIOTHERAPY BEGUN

01

STABLE & MOVING

All five patients are stable and have begun physiotherapy.

02

NEUROLOGICAL IMPROVEMENT

Post-operative assessments have shown improvement in neurological status compared with pre-operative findings.

From surgery to rehabilitation, recovery is already underway.

COORDINATION

MOMENTS FROM DHARAMPUR

Not everything from a camp can be captured in numbers.

The conversations between cases, a scan being reviewed, a moment with a patient, the team between long hours, these are the glimpses that filled our stories over the weekend.

HERE ARE A FEW WE SAVED.

Spine Camp

Dharampur

[Gujarat]

- Free Spine Health Camps
